

Interim-Einkaufsleitung Maschinen Hersteller (4 Monate)

Client	Function	Task	Duration
International Toolmaking company approx. 500 MA	Purchasing Management	Interim Purchasing Manager	4 Months
Problem			
<p>One of the main problems was bottlenecks and delays in procurement. Certain materials or components were not available in time, which led to interruptions in production or delays in delivery.</p>			
Mission			
<p>Supplier management and selection: Review and evaluation of the existing supplier base. Identify reliable and high quality suppliers. Establish long-term partnerships with selected suppliers to ensure a stable supply chain.</p>			
Results			
<p>Improved supplier performance: Bottleneck management and targeted supplier selection increased the reliability and On-Time deliveries. This led to improved supply chain stability and reduced downtime or delays in production.</p>
