

Interim-Einkaufsleitung Großhändler im Bau-Bereich (8 Monate)

Client	Function	Task	Duration
International formwork wholesaler approx. 300 MA	Purchasing Manager	Interim Purchasing Manager	8 Months
Problem			
<p>Overall, we faced the challenge of modernizing purchasing and making it fit for the future. Solving this problem required a holistic view of the processes, optimization of the supply chains and close cooperation with the internal departments and external suppliers.</p>			
Mission			
<p>Analysis of existing procurement processes to identify inefficient and time-consuming steps. Introduction of digital solutions to make the purchasing process more efficient and error-free. Reduce manual activities and implement a transparent and integrated procurement system.</p>			
Results			
<p>Costs were reduced by optimising the processes in purchasing. More efficient processes, the automation of recurring tasks and the avoidance of bottlenecks have enabled savings in procurement costs. In addition, better conditions and prices were achieved through targeted negotiations with suppliers.</p>
